

## THANK YOU

Thank you for downloading Organized Circus's FREE Pump'kin for School Wall Prints to get your home into the Halloween Spirit and adopt the magical classroom experience right in your own child's room (or living room if you prefer)!

Remember how fun it was to come back to school after a weekend to see everything had changed in the classroom! One downside of remote learning is that our kids miss out on the fun decorations and themes their teachers pour their hearts into! So, one weekend when our daughter went over to a close friend's house to have a much needed playdate we seized the opportunity to transform her workspace and create some fun! We replaced her everyday decor with fun Halloween prints, hung banners, and made a wall of 3-d bats! When she came home she was smiling ear to ear and felt so special. We hope your little one has the same reaction when you surprise them too! Make sure to share your transformations on social media and tag us! We would love to see it in action!
